

Folsom Sierra Endoscopy Center

1600 Creekside Drive, Folsom, CA 95630

The Folsom Sierra Endoscopy Center is an outpatient medical facility dedicated solely to providing state of the art gastrointestinal endoscopy services.

Approximately 5,000 gastrointestinal endoscopies are performed at the Center annually by our highly trained staff of physicians, nurses and technicians, all of whom specialize in GI endoscopy.

The Folsom Sierra Endoscopy Center is one of only fifty medical facilities on the west coast of the United States to have demonstrated a standard of excellence allowing participation in the American Society of Gastrointestinal Endoscopy's Endoscopic Unit Recognition Program. In addition, the Center is accredited by the Joint Commission (formerly the Joint Commission on Accreditation of Healthcare Organizations - JCAHO), receiving its Gold Seal of Approval.

Both of these prestigious distinctions require adherence to the highest and most rigorous standards to promote safe, effective and outstanding patient care. We believe that our continual commitment to qualify makes the Folsom Sierra Endoscopy Center the ideal facility to perform your endoscopic procedure.
